COMMUNITY PARTNER

Dear Community Partner,

In line with the United Arab Emirates Leadership, Vision, and Innovation Strategy and the Abu Dhabi Economic Vision 2030, The Department of Health - Abu Dhabi is launching the second edition of its successful TIP Healthcare through the Technology Innovation Pioneer (TIP) framework.

Initiated by the UAE Ministry of Economy and the Department of Economic Development (DED) - Abu Dhabi, TIP is the leading program with the objective of creating globally impactful technologies and innovations, shaping the future of pioneers. TIP aims to position Abu Dhabi as a world-class hub for innovation in healthcare and life science by attracting the most talented experts from across the world.

We are pleased to invite you to be a community partner of TIP Healthcare for the purpose of working with leading organizations, such as yours, to drive awareness, maximize participation, and educate the wider public about the TIP Healthcare program.

The TIP Healthcare Summit brings new exciting challenges that affect the UAE and the wider world. Inventors and entrepreneurs have been invited to provide technologically innovative solutions from around the globe to solve the following challenges:

- **Assistive Technology** – Inventions and ideas that use assistive technology to enhance independence for people with disabilities.
- **Using Big Data in Healthcare** – Flexible big data solutions, capable of discovering trends and patterns in huge data volumes, that give researchers meaningful and actionable healthcare information.
- **Child Obesity** – Innovative methods and technologies that address child obesity.

By becoming a community partner, you could realize far-reaching benefits and new innovative investment opportunities. This is an opportunity to get involved with something huge and amazing. Kindly find the terms of the community partnership in the table below.
